

HIGH-TEMPERATURE THERMOCHEMICAL HYDROGEN PRODUCTION USING A SOLAR CONCENTRATING SYSTEM

Tatsuya Kodama

Niigata University, Japan

Biography

Graduated from Department of Chemistry, Tokyo Institute of Technology, Tokyo, Japan in 1990.
Obtained Ph.D. at Graduate School of Tokyo Institute of Technology in 1994.
Assistant Professor, Dept. of Chemistry & Chemical Engineering, Niigata University, Niigata, Japan, in 1995-1997.
Associate Professor, Niigata University in 1997-2003
Professor, Niigata University in 2003 - present.
Working on Solar Thermochemical Processes using solar concentrating system for about 20 years.

Published a review paper
“Thermochemical Cycles for High-Temperature Solar Hydrogen Production”
in Chemical Reviews (American Chemical Society) in 2007.
