

High penetration of PV in electricity grids: international context

Christoph Mayr

AIT Austrian Institute of Technology, Austria

Biography

Christoph Mayr, M.Sc. in Information and Communications Technology, specializing on Microelectronics and Information Systems (2005) from the Technical University Graz, Austria and NTNU Trondheim, Norway. From 2005 to 2013 researcher and project manager at the Business Unit for Electrical Energy Systems at AIT Austrian Institute of Technology, responsible for research infrastructure for PV inverters and smart grids with the main focus on grid integration of photovoltaics.

Since 2014 he is Head of Business Unit „Photovoltaic Systems“ at AIT Austrian Institute of Technology, Energy Department. C. Mayr is project manager (Operating Agent) of Task 14 „High Penetration PV in Electricity Grids“ in the PVPS (Photovoltaic Power Systems) implementing agreement of the IEA, since 2014 expert member of the European Technology Platform PV, and leads the sub-programme “PV Systems” within the European Energy Research Alliance (EERA Joint Programme PV).
