

## ***Outlook for solar PV development in Southeast***

**Wilfred Walsh**

*SERIS (Solar Energy Research Institute of Singapore), Singapore*

### **Biography**

Dr Wilfred Walsh is a physicist who has worked at CSIRO's Australia Telescope National Facility in Australia, the Max Planck Institute in Germany, and the Harvard-Smithsonian Center for Astrophysics in the USA before moving to the Solar Energy Research Institute of Singapore.

His current research interests include real-time solar irradiance forecasting; analysis, finance and monitoring of solar energy systems; novel PV systems design and utility-scale project development.
